

# MAGNET2021 One Page Extended Abstract Template with Title Case Formatting – Elements and Acronyms Should Be Capitalized

Author 1 First Name Surname<sup>1</sup>, Author 2 First Name Surname<sup>2</sup>, Author 3 First Name Surname<sup>3</sup>

1. Affiliation(s), address(es), Country
2. Affiliation(s), address(es), Country

email: [Plauthoremail@univ.xxx.com](mailto:Plauthoremail@univ.xxx.com)

This is a sample document format for the one page extended abstract for submissions to the **7th Italian Conference on Magnetism (MAGNET)**, promoted by AIMAGN. Although this document is provided in Microsoft Word and L<sup>A</sup>T<sub>E</sub>X format, the document to be uploaded must be in PDF format.

Include all equations, drawings, figures and references within the one page limit. Avoid asterisks, job descriptions or footnotes. **Acknowledgements** can be placed before references within the **one page limit**. Please be concise in your presentation, highlighting what is novel and original about your submission. Simple equations should be included in-line wherever possible, whereas more complex expressions should be centred and numbered if there are several. Figures should be relevant to the submission and preferably centred as shown below. Placing subfigures side-by-side is a convenient way to include multiple results within the one page limit. The figures can be in color, as the book of abstract will be only distributed in its electronic version.

**Fig. 1** Caption should be included here. Size of image can be modified from the x variable.

References should appear at the end of the article in the order in which they are referenced in the body of the paper. Authors are listed first, followed by the journal's title abbreviation in italics, the volume number in bold, page number, and the year in parentheses. Within the main text, references should be designated by a number in brackets [1], and they should precede a comma or period [2]. Two references cited at once should be included together [2,3], separated by a comma, while three or more consecutive references should be indicated by the bounding numbers and a dash [1–3].

**Please do not disable any packages in the preamble, as this may cause the template to display incorrectly.**

**Please do not change any commands within the SETUP sections.**

## References

- [1] C. Name, P. Name, *Journal*, year, vol, first page
- [2] C. Name, P. Name, *Journal*, year, vol, first page
- [3] C. Name, P. Name, *Journal*, year, vol, first page
