

Prevention and Protection

Florence Site Coordinator: Carlo Bartoli.

Pisa Site Coordinator: Carlo Abete.

Bari Site Coordinator Alessandro Basanisi.

Expert in Radiation Protection: Alessandro Lavacchi.

Other personnel: Stefano Carito, Roberto Spiniello.

The Prevention and Protection Office supports the RSPP and the Management for activities related to safety and health in the workplace and operates under the coordination of the same, in particular for the following activities:

- collaboration with the RSPP to develop correct working methods for safety (specific for the various tasks);
- collaboration with the Prevention and Protection Service for the organization of information and training programs for workers;
- updating of the risk assessment sheets to be integrated into the Risk Assessment Document;
- maintaining relationships with RLS (Workers' Representatives for Safety), in order to guarantee transparency on prevention and protection of workers;
- archiving of Work Sheets, suitability and safety courses for workers;
- assisting the Employer in drafting and updating the Risk Assessment Document;
- collaboration with the Employer and the RSPP in drafting internal procedures and emergency/evacuation plans;
- updating workers and disseminating safety culture through sharing procedures, schemes, organizational charts and so on;
- assistance and consultancy on worker safety.
