

Porous materials for gas separation and ion exchange membranes: insights from NMR

NMR spectroscopy can shed light on the mechanisms that govern the performance of materials for gas separation, storage, and ion-exchange applications. Join this workshop to better understand these classes of materials, hear about recent advancements and contribute to discussions on applications of NMR in these fields of research.

17 November 2025

10:00 – 16.30

Pisa, “Le Benedettine”
conference center

SPEAKERS

Alessio Fuoco
CNR-ITM

Monia Montorsi
Università di Modena e Reggio Emilia

Lucia Calucci
CNR-ICCOM

Michael Vogel
Technische Universität Darmstadt

Silvia Bracco
Università Milano Bicocca

Assma El Kaddouri
Université de Lorraine – UMR CNRS

Elisa Della Latta
Università di Pisa

Andrea Giovanelli
Università di Pisa

INFO and REGISTRATION

The Workshop is promoted
by **GIDRM** and by the
In-Motion project
(University of Pisa and
ICCOM-CNR)

Register at www.gidrm.org

Deadline: 31st October

Registration Fees:

60 € non GIDRM members
40 € GIDRM members

SUBMIT YOUR ABSTRACT FOR A SHORT PRESENTATION!

Take the opportunity to give a short presentation
during the workshop. Submit your abstract at
pisa2025@gidrm.org before **15th October**.

ORGANIZING COMMITTEE

Francesca Martini, Elisa Carignani,
Francesca Nardelli, Marco Geppi,
Silvia Borsacchi, Silvia Pizzanelli

CONTACTS

pisa2025@gidrm.org
